

## BOOST YOUR BUSINESS WITH AN ASSET-LIGHT STRATEGY

### Looking to strengthen your financial performance?

The recent pandemic has prompted companies in all sectors to consider asset-light strategies, which entails transitioning assets and capabilities to third parties in the broader ecosystem. By doing so, you can reduce your business model complexity and focus on core capabilities. Econocom is your ideal partner to make such a move.

### What's in it for you?

#### Revenue growth

Adapt quickly to changing customer needs and create new revenue streams

#### Innovation

Keep up with technology advancements and drive sustainability

#### Greater performance

Reduce operational burden and focus on core capabilities

#### Cash back

Improve gross margin and release cash tied to assets

#### Asset leverage

Generate higher returns on capital employed
